

**ADTRAN**

**MX410**

*ADTRAN for Wireless Solutions.*

# MX410

## *Single Platform*

ADTRAN's MX410 delivers full DS0 control to service locations, allowing carriers full utilization of DS1 bandwidth.

- Drop and Insert up to 24 DS0 signals from any DS1 interface on the terminal side
- Digital and Analog Radios Data
- Star Configuration of Backhaul

## *Economical*

The MX410 costs less than half the price of other early generation remote management and bandwidth utilization products.

- Practical and efficient DS1 networking
- DS0 grooming allows for bandwidth allocation for special services such as E911 through a V.35 port
- Functional T1s may be groomed for maximum bandwidth efficiency

## *Space Saver*

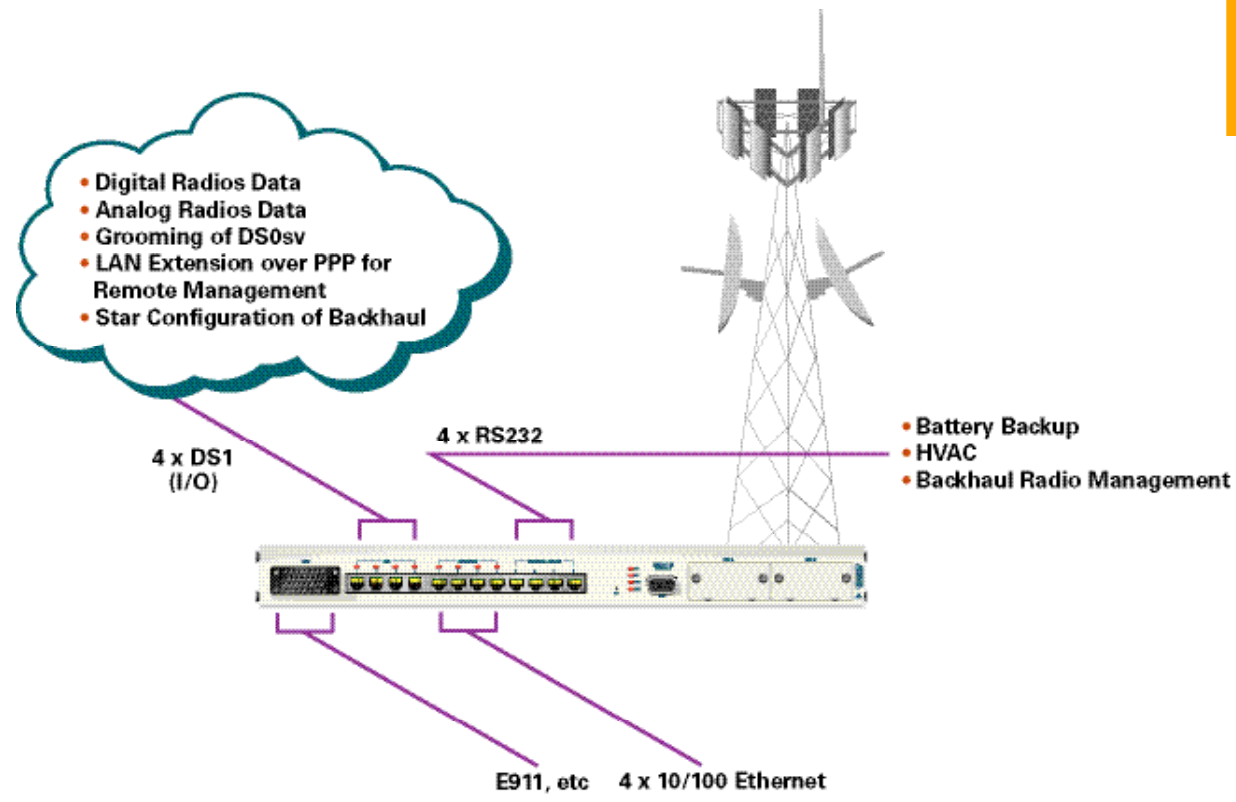

ADTRAN's MX410 is packaged in a 1RU, 19-inch chassis with an optional 23-inch adapter.

- Operational temperature -40° C to 65° C with a storage temperature of -40° to 85° C.
- BatteryBackup
- Backhaul radio management
- Environmentally Hardened

MX410 Multiplexer

*Today's wireless carriers need solutions to deliver services in a constantly changing environment. ADTRAN® delivers innovative and economical wireless solutions to ensure success, now and in the future. ADTRAN's MX410 provides complete remote management and bandwidth utilization. The single platform MX410 is economical, space saving and environmentally-hardened.*

## Complete Remote Management and Bandwidth Utilization

**A**DTRAN's Wireless Solutions enable service delivery for current and future network requirements. Our service delivery options for wireless access are cost-effective, manageable, and reliable. ADTRAN understands the challenges that impact delivery of services to cell sites and the demand for new applications by customers. Our solutions meet this demand and reduce subscriber churn by delivering advanced services while reducing overall equipment costs.

You may not think of ADTRAN for wireless solutions...but you will.

*for Wireless Solutions*

For nearly 20 years ADTRAN has successfully provided network access solutions optimizing cost, performance and business success. Now ADTRAN's award-winning customer service and technologically advanced products are available for wireless providers.
