

# Know Your FlexNAP™ System

CORNING

Do you know the benefits of Corning's FlexNAP™ system? Our FlexNAP system provides the most cost-effective method of deploying optical fiber in distribution networks at speeds significantly faster than traditional field installations. The increased speed of network deployment, along with the reliability of factory testing, offers significant value to the end user.

## 1 Up to 5x Faster

Plus 5x reduction in civil traffic/customer disruptions.

## 2 Slimline Overmolds

Reduced closure size improving aesthetic appeal.

## 3 Concentrated Fiber Splice Locations

80%

fewer field splice locations.

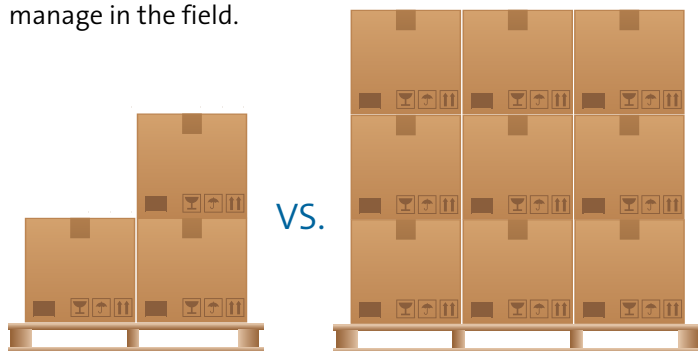

Up to 70%

fewer splices total.

## 4 Reduced Supply Chain/Installation Complexity

Fewer components to manage in the field.

## 5 Increased Efficiency of Labor

Faster subscriber turn-up using same crew.

Full Splice

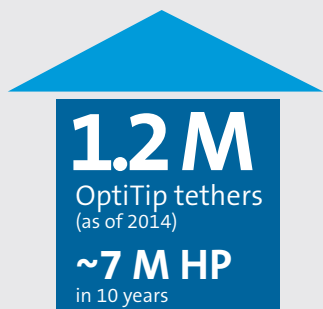

Full Preconnectorized

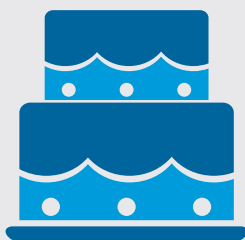

## Widespread Adoption

of homes using OptiTip® technology.

## Proven Technology

10-year anniversary.

## Factory Quality

100%

factory-tested components.

## Break/Fix

Cable repair with standard procedures and practices.

Cable cuts managed similarly to bulk cable deployments.
