

# Aastra Analog Phones from Mitel

Share information and collaborate with co-workers, partners,  
and customers, regardless of device or location

Mitel has been a leader in the communication business for over 40 years. Mitel has evolved in that time, but continues to offer Business Grade Analog devices to fully address the needs of the complex open standards market. Mitel and Aastra merged in 2014, allowing for continued innovation with the new 6300 Series Analog Phones, the latest offering of powerful and modern Analog phones interoperable with all telephony platforms.

**Explore Mitel's bestselling line of Analog phones.**
