Aastra SIP Phones from Mitel

Share information and collaborate with co-workers, partners, and customers, regardless of device or location

Mitel has been a leader in the communication business for over 40 years and introduced SIP telephones to the market nearly a decade ago. Over this period, Mitel has evolved its line of SIP telephones to fully address the needs of the complex open standards market. Mitel and Aastra merged in 2014, allowing for continued innovation with the new 6800 SIP Phone Series, the latest offering of powerful and modern SIP phones interoperable with all major IP telephony platforms. **Explore Mitel's bestselling line of Aastra SIP phones.**
